

Drive in car to Bulbjerg or a long bike trip – On Bike route 1 Vestkystruten

Driving for around 2 hours but it is on some roads not asphalt so it can take long

Drive towards Svinkløv Badehotel

Drive left up hill

Drive the 2 km through the forest and turn right towards Grønnestrand where the forest ends at Gl. Hvarre vej

Continue to the end of Grønnestrand – Down by the coast turn left at Kollerup Strandvej at Kollerup Strand continue at Kollerup strandvej in to the country to Havvejen – Turn right towards Klim Strand

Pass Klim Strand Camping ad you reach Kollerup and turn right to the fisher boats.

Here you reach a bigger fishing boat harbor directly at the coast.

Take a view at the boats.

You can also visit the Fresh fish shop – Look at the folder in the map.

Not a very especially delicate fish shop but excellent different fish and they are fresh.

But buy Danish fiskefrikkadeller or a fiskefillet or a bear and you can eat outside. You can also bring your picnic.

Drive against Bulbjerg

Continue into the country at Kollerup Strandvej until you reach Bulbjergvej – turn right

Here you pass Troldeing. An old meeting place for important trolle in North of Jutland.

Here you can also picnic. Enjoy the shelter from the wind you will often find wind at the rest of the tour

At Bulbjerg you can park and walk the path around the cliff to the edge where you can see the rest of the big stone Skarreklit that cracked around 30 years ago and now is covered in the water. At the edge, you can go into an old German bunker.

In the bunker, you can read about the only bird mountain in Denmark on the cliff.

Also history about the bunker during the war and you can enjoy the view from the shooting opening

View from the top towards West and Hanstholm

And to the East towards Svinkløv

At the parking place there is another bunker and toilettes and som explanation on the West coast biking trail route 1.

250 mill years ago the cliff that we today knows as Bulbjerg were covered with water. By preassure from a lot of organic material and billions of small animal plankton the lime cliff were formed an in time elevated from the underlying salt depo.

Today Bulbjerg is known as the only bird cliff in Denmark. Primary the cliff is nesting place for the biggest colony of Rider in Denmark

View to the south west into the country and you can see the big windmills at Østerild test center

You can walk downhill

Or drive downhill and turn right two times and you reach the parking at the beach. Then you can walk to the cliff and see the fantastic structures of the very old cliff

You can drive back by the fastest way to follow Bulbjergvej into the countryside until you reach the old road from Thisted to Fjerritslev. Turn left and go to Fjerritslev and back to Slettestrand. If you did not get enough fish at Kollerup visit the butcher in Fjerritslev and you can get all for a real Danish fish lunch. Remember to buy Rye bread at the baker

You can also go to the big Windmill test center in Østerild. - 7 enormous mills tell the story of Denmark as the number one wind mill country in the world

Or if you like to watch birds you can pass the Vejlerne towards the Limfjord and return to Slettestrand

At the picture you see gray gees and Bramgees at a field

Or read the folder about the best places to watch all the seldom birds in the area

I do not know all the different English names

Skkestork

Traner

Brushøns

Rørdrom

Rørhøg

Skægmejser

Blåhals and much much more
